Emergency Vaccines

Clinical Sample Submission Form

Please ensure our requirements for TSE risk-compliance and packaging of samples (see separate sheet titled "Advice for Sample Submission") have been met.

Submitted by:

Include name of responsible veterinarian and veterinary practice

Farm or Company where samples were taken:

Include address of farm/site if possible

Animal species from which isolation was made:

Animal ID:	**Sample type:** *e.g. liver swab, bacterial isolate, etc*	**Your reference(s):**	**Ridgeway Biologicals reference:** (*to be completed by Ridgeway staff*)

Reason for sample submission:

Ridgeway Biologicals Ltd will perform our standard microbiological assessment of the predominant, viable isolates. If any addition analyses, such as serotyping are required, please give details here. Please note there may be a charge for any additional services.

Media used for submission:

If you have not previously given us details of the supplier or composition of the media, please provide details here.

Ridgeway Biologicals Limited, Units 1-3 Old Station Business Park, Compton, Berkshire, RG20 6NE United Kingdom
